Your Investment Objectives

Your Objectives

- What is the intended purpose for your investments?
- How do you think and feel about investing?
- What is your attitude toward risk and reward?
- What is your appetite for growth and/or income?
- What is your tolerance for volatility?

Key Questions to Consider

- What is your previous investment experience?
- How did you select your existing investments?
- How are your funds performing?
- How often do you review your strategy?
- How do you manage risk?

Key Questions to Consider

- Are your investments sheltered from tax?
- What costs are you incurring?
- Do your investments represent good value for money?
- How confident are you in managing them efficiently?
- Do you wish to benefit from expert guidance and advice?

Achieving Your Objectives

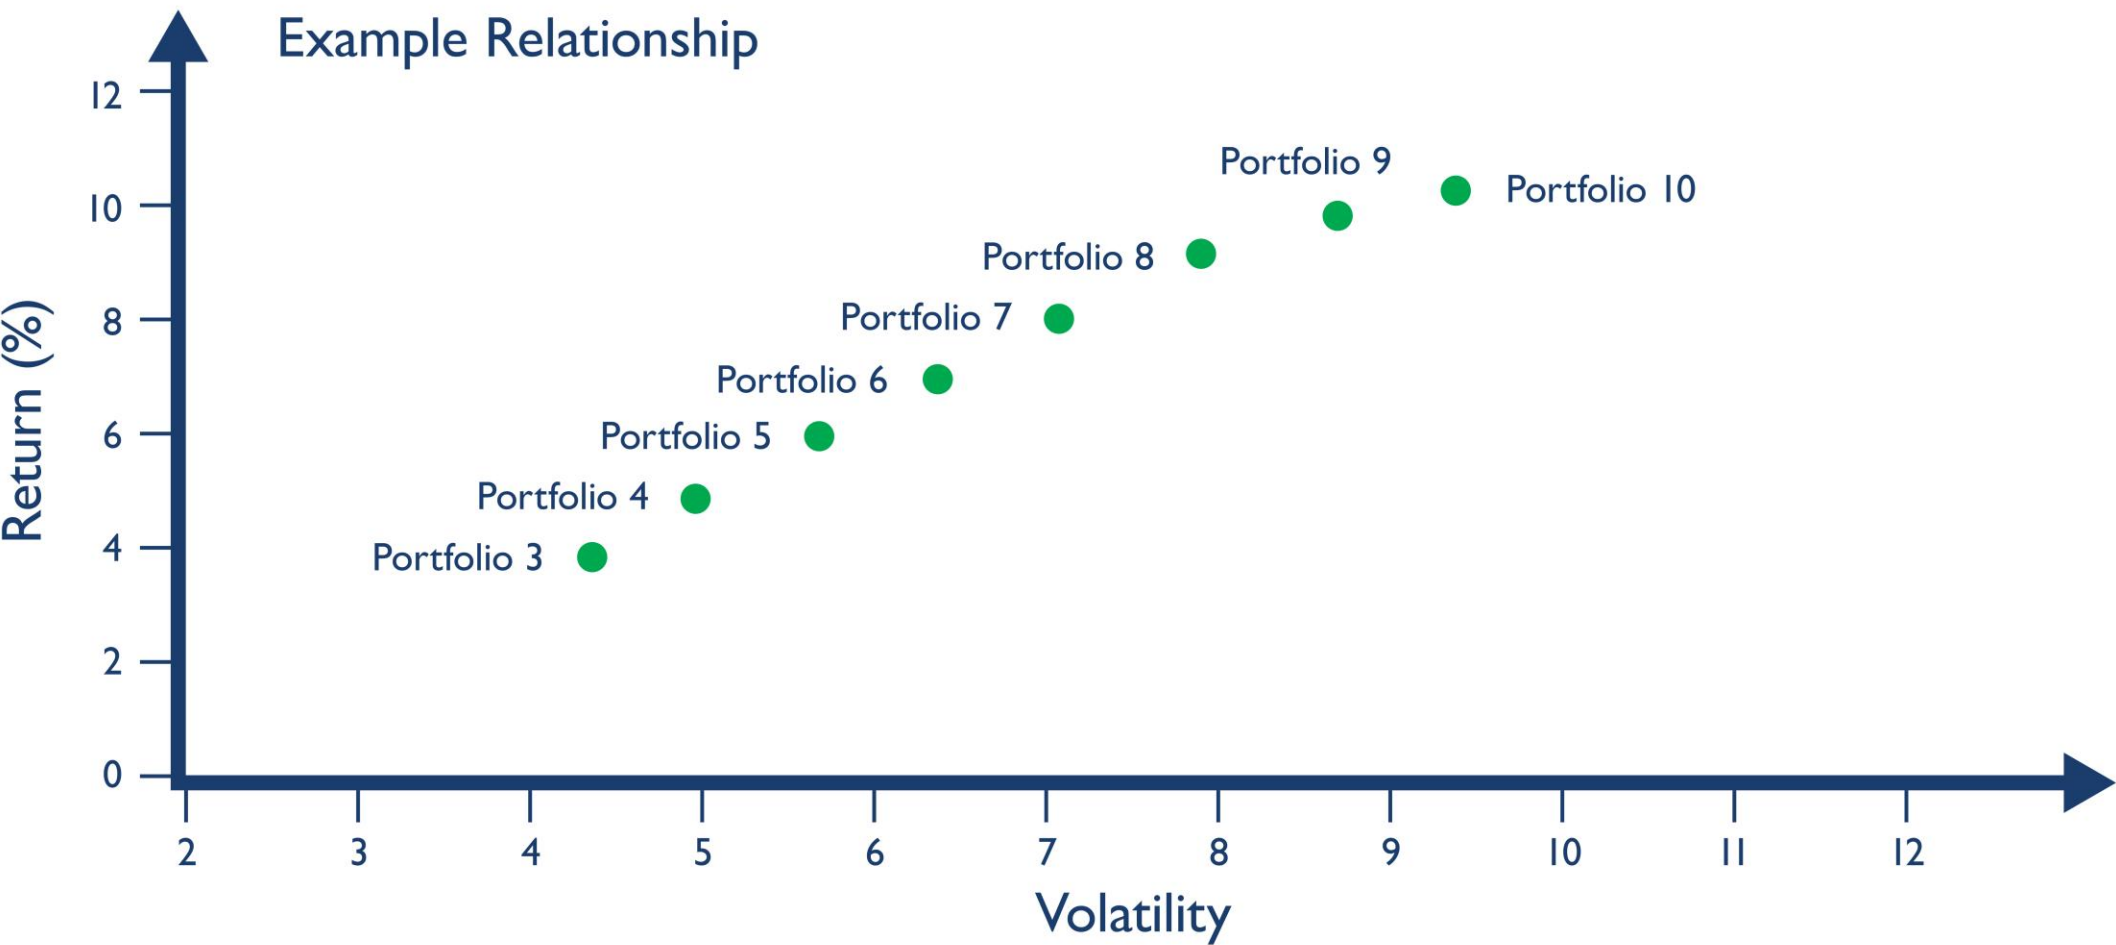

Making Your Money Work For You

The Effect of Compound Interest

Year / %	2%	3%	4%	5%	6%	7%
1	£102,000	£103,000	£104,000	£105,000	£106,000	£107,000
5	£110,400	£115,900	£121,700	£127,600	£133,800	£140,300
7	£114,900	£123,000	£131,600	£140,700	£150,400	£160,600
10	£121,900	£134,400	£148,000	£162,900	£179,100	£196,700
20	£148,600	£180,600	£219,100	£265,300	£320,700	£387,000
30	£181,100	£242,700	£324,300	£432,200	£574,300	£761,200

Risk & Reward

For illustration purposes only. Past performance is not a guide to future performance.

Important Information

Castle Financial Planning is an Appointed Representative of New Leaf Distribution Ltd, who are authorised and regulated by the Financial Conduct Authority: Reference No. 460421. Company registration Number 5520001.

Our services relate to certain investments whose prices are dependent on fluctuations in the financial markets beyond our control. Investments and the income from them may go down as well as up and you may get back less than the amount invested. Past performance cannot be used as a reliable prediction of future performance.
